

Last updated 15/3/05

THU (MAR 31) 5:30 - 7:30 PM	Registration				
FRI (APRIL 1) 8:15 AM	Registration				
9.10 AM	Conference welcome				
FRIDAY APRIL 1	Theatre 1 Chair: Barbara Gillam	Theatre 2 SYMPOSIUM Face and Object Perception Chairs: Elinor McKone & Gillian Rhodes	Theatre 3 Chair: Stephan Lewandowsky	Theatre 4 Chair: Denis Burnham	G20 Chair: Darrell Collins
	P.WENDEROTH D.BURKE Testing the tilt constancy theory of visual illusions	M.WILLIAMS N.BERBEROVIC J.MATTINGLEY Abnormal neural adaptation to unfamiliar faces in a case of developmental prosopagnosia: implications for the role of the fusiform face area in face perception	D.CREWETHER A.PANAYIOTOU D.ABBOTT S.CREWETHER Domain-specific compartmentalization of working memory in prefrontal cortex	M.NICHOLLS D.SEARLE Asymmetries for the visual expression and perception of speech	S.PROVOST B.ROCHE Do cigarette warning labels elicit fear?
	S.PALMISANO R.ALLISON I.HOWARD Perceptions of illusory shearing in the tumbling room	D.MAURER R.GRAND C.MONDLOCH Missed sights: consequences for the development of face processing	A.PANAYIOTOU S.CREWETHER D.ABBOTT D.CREWETHER The neural correlate of working memory's central executive	N.LEES The effect of speaking style on the detection of speech in noise	D.STEEL E.KEMPS M.TIGGEMANN The role of hunger in the experience and reduction of food cravings
	H.KRIJNEN A.DAVIES Competing for attention: investigating the egocentric reference frame	R.PALERMO L.MILLER Amygdalae, auras and affective facial expressions	S.HOWARD T.GREGORY C.WILSON T.NETTELBECK The prognostic utility of working memory in the functioning of the elderly	C.DAVIS J.KIM A.CUTLER Masked priming of spoken word judgments	G.PAULIK J.BADCOCK M.MAYBERY The role of emotion in predisposition to auditory hallucinations
9:30 AM					
10:00 AM					
10:30 AM					
11:00 AM	Morning tea (Executive Lounge)				

FRIDAY APRIL 1	Theatre 1 Chair: Ross Day	Theatre 2 SYMPOSIUM cont.	Theatre 3 Chair: Kerry Chalmers	Theatre 4 Chair: Anne Castles	G20 SYMPOSIUM Affective Learning Chair: Robert Boakes
11:30 AM	K.BROOKS B.GILLAM Perceived motion-in-depth from changes in the extent of binocularly unmatched regions	H.WILSON F.WILKINSON N.ANDERSON G.LOFFLER G.YOURGANOV Face geometry and face space: psychophysics & fMRI	K.NEALE G.TEHAN Ageing and the semantic similarity effect	M.HOOD Can perceptual & cognitive factors explain the relationship b/w rapid naming speed and reading ability?	L.ALBERTELLA R.BOAKES Measuring acquired flavour preferences in rats: Some puzzles
12:00 PM	P.GROVE B.GILLAM Factors affecting the preference for an occlusion solution over lines of multiple slants	G.RHODES L.JEFFERY Opponent-coding of faces	T.BEST J.BRYAN N.BURNS An investigation of saccharide effects on memory performance	H.WINSKEL V.WIDJAJA Phonological awareness and literacy development in Indonesian children	R.BOAKES F.THEIS D.KARAZINOV Disliking a face because it reminds one of an unpleasant smell
12:30 PM	B.GILLAM Factors influencing amodal continuation	S.FAVELLE D.BURKE R.MALONEY Cueing effects in a face change detection task	M.GERRIE M.GARRY Remembering what never happened: False memories for missing events	J.BOWEY D.MULLER Phonological recoding and rapid orthographic learning in third-grade children's silent reading: A critical test of the self-teaching hypothesis	J.CRANNEY C.CHEN The plus maze animal model of anxiety: Differences in contextual fear extinction, but not in acquisition or discrimination learning
1:00 PM	Lunch (Executive Lounge)				

FRIDAY APRIL 1	Theatre 1 Chair: Peter Wenderoth	Theatre 2 SYMPOSIUM cont.	Theatre 3 Chair: Mike Nicholls	Theatre 4 Chair: John Hogben	G20 SYMPOSIUM cont.
2:00 PM	R.DAY A.KIMM Analysis and explanation of Wundt's illusion of unequal extents	V.STONE D.SNADDEN Similarity in recognition processes used for bodies and faces: Bodies show caricature effects	J.SNOW J.MATTINGLEY The role of goal-directed attention in inhibiting task-irrelevant information in parietal extinction	S.ROODENRYS Implicit learning in specific reading disability: no impairment in a cued-reaction time task	H.PURKIS O.LIPP Is affective learning resistant to extinction? The effects of assessment type on ratings of conditional stimulus valence and predictiveness
2:30 PM	B.ANDERSON J.WINAWER Image segmentation and lightness perception	R.GLAUERT G.RHODES S.BYRNE Do you see what I see? Body dissatisfaction and the perception of normal weight.	J.MATTINGLEY M.WILLIAMS N.BERBEROVIC A.RICH R.CUNNINGTON Attentional modulation of visual cortex activity following right parietal damage in humans	H.ROWSE C.WILSHIRE Comparison of effectiveness of phonological and whole-word treatment programmes within two dyslexia subtypes	K.MALLAN O.LIPP The good and the bad: Acquisition of likes and dislikes in affective learning

FRIDAY APRIL 1	Theatre 1 Cont.	Theatre 2 Cont.	Theatre 3 Cont.	Theatre 4 Cont.	G20 Chair: Helena Purkis
3:00 PM	M.DRY Detecting structure in symmetrical stimuli	M.PETERS G.RHODES L.SIMMONS The relative contributions of the face and body to overall attractiveness	A.ABRAHAMYAN C.STEVENS A.IOANNIDES The effect of emblematic hand gestures on visual attention	G.STUART K.MCANALLY S.HARDING A.CASTLES Magnocellular and parvocellular flicker perception and its relation to reading ability in Grade 3/4 children	O.LIPP Of snakes and flowers: Does preferential processing of pictures of fear-relevant animals in visual search reflect on fear-relevance or on the control stimuli?
3:30 PM	A.ANDERSON R.CARPENTER Using eye movements to study how past experiences shape expectations	A.CALDER R.JENKINS J.BEAVER Adaptation of eye gaze perception	T.CHONG M.WILLIAMS R.CUNNINGTON J.MATTINGLEY Attentional modulation of neural responses to action observation: implications for models of the human 'mirror' system	E.CONLON K.NORRIS, KARLA M.ZIMMER-GEMBECK P.CREED Rapid sequencing skills in skilled and poor readers. The impact of stimulus parameters, subject characteristics, and 'cut-off' points	D.NEUMANN The effects of physical context changes and multiple extinction contexts on two forms of renewal in a conditioned suppression task with humans
4:00 PM	Afternoon tea (Executive Lounge)				

FRIDAY APRIL 1	Theatre 1 Chair: David Badcock	Theatre 2 SYMPOSIUM cont.	Theatre 3 Chair: Sachiko Kinoshita	Theatre 4 Chair: Geoff Stuart	G20 SYMPOSIUM Cross-modal perception Chair: David Alais
4:30 PM	F.WILKINSON H.WILSON G.LOFFLER S.SHAHJAHAN In search of a code for elliptical shapes	E.MCKONE Configural processing of faces in depth rotated views	D.COLLINS N.ILIC L.PINKIS Implicit learning in a cued-Stroop task	J.HOGBEN N.ROACH Visual attention and dyslexia: replicability and specificity of the spatial cueing deficit	R.MARTIN K.MCANALLY Sound localisation during illusory self-rotation
5:00 PM	S.DURANT C.CLIFFORD The effect of spatial and temporal context in orientation perception	L.JEFFERY G.RHODES T.BUSEY Do face aftereffects transfer across views?	L.PEACH K.MURPHY Stimulus colouration and task type in a lateralised Stroop study	E.BAVIN P.WILSON P.MARUFF F.SLEEMAN Visuo-spatial memory of 4-5 year old children with SLI	K.MCANALLY P.SANDOR L.PELLIEUX R.MARTIN Sound localisation in hypergravity
5:30 PM	J.FORTE Binocular summation of colour and luminance contrast	I.HARRIS P.DUX Effects of object orientation on the attentional blink	V.PRITCHARD E.NEUMANN Pitfalls of developmentally inappropriate negative priming tasks	G.MCARTHUR D.BISHOP Sound processing in people with specific language impairment	J.HARRIS C.CLIFFORD The effect of "non-informative" vision on tactile sensitivity
6:00 PM	Opening reception (Executive Lounge)				

SATURDAY APRIL 2	Theatre 1 Chair: Barton Anderson	Theatre 2 SYMPOSIUM cont.	Theatre 3 Chair: Michael Lee	Theatre 4 Chair: Virginia Holmes	G20 SYMPOSIUM cont.
9:00 AM	R.O'SHEA D.ALAIS A.PARKER The depth of monocular-rivalry suppression	V.COLTHEART E.CONNAUGHTON Repetition blindness for faces differing in emotional expression	K.MURPHY G.ANDREWS K.WILLIAMS I.FURNER J.CAELLI Does video-game playing enhance cognitive processes?	A.KEVAN K.PAMMER The contribution of visual sensitivity, phonological processing and non-verbal IQ to children's reading	C.CHAMBERS M.STOKES J.MATTINGLEY Neurodisruption evidence for modality-specific attentional control in the human brain
9:30 AM	J.PEARSON C.CLIFFORD Synchronised grouping across three different types of visual rivalry	K.CROOKES E.MCKONE Childhood development of implicit memory for unfamiliar faces	M.O'HARE J.PHILLIPS S.MOSS The effects of time-stress, risk level and deductive logic ability on decision making in dynamic environments	A.CASTLES T.BATES M.LUCIANO N.MARTIN M.COLTHEART Two different sets of genes for reading (and spelling)	D.ALAIS S.CARLILE Synchronizing to real events: Subjective audiovisual alignment scales with perceived auditory depth and speed of sound
10:00 AM	T.WATSON J.PEARSON C.CLIFFORD Global interpretation of biological motion promotes rivalry	R.ROBBINS E.MCKONE Does extensive experience with dogs lead to holistic processing?	S.KINOSHITA K.FORSTER M.MOZER The prime validity effect as adaptation to the statistics of the environment	T.BATES A.CASTLES M.LUCIANO N.MARTIN M.COLTHEART Which genes allow us to read and why?	A.RICH J.MATTINGLEY Out of sight, out of mind: suppression of synaesthetic colours during the attentional blink
10:30 AM	Morning tea (Executive Lounge)				

SATURDAY APRIL 2	Theatre 1 Chair: Robert O'Shea	Theatre 2 SYMPOSIUM cont.	Theatre 3 SYMPOSIUM Categorization & Reasoning Chair: Brett Hayes	Theatre 4 Chair: Marcus Taft	G20 SYMPOSIUM Music Perception & Cognition Chair: Kate Stevens
11:00 AM	BLANK	K. HANCOCK G.RHODES The upsides and downsides of face recognition: The effect of contact and inversion on the recognition of other-race faces	S.THOMPSON B.HAYES Causal induction in adults and children N.SWELLER B.HAYES Category acquisition in children: Comparing learning through classification and inference	S.ANDREWS A.WOOLLAMS R.BOND Spelling-sound typicality only affects words with digraphs: Another fact bites the dust?	S.TOUKHSATI S.FIELD N.RICKARD The memory enhancing effects of exposure to rhythmic maternal hen calls following passive avoidance training in the day-old chick
11:30 AM	D.BADCOCK J.DICKINSON A.MCKENDRICK J.MCARTHUR Orientation cues to motion direction can be incompatible with image smear	D.BURKE C.NOLAN W.HAYWARD The other other-race effect: Attractiveness	L.ROBERTS S.LEWANDOWSKY Boundaries of knowledge partitioning in categorization	I.SIMPSON You say lexicon, I say lexica, let's call the whole thing off!	B.KERESZTESI C.STEVENS The effect of categorization-training on pitch contour judgments in Shepard tones
12:00 PM	J.GREENWOOD M.EDWARDS Speed differences extend the motion transparency detection limit	E.JAQUET G.RHODES Can we process own- and other-race faces independently?	D.LITTLE S.LEWANDOWSKY Knowledge restructuring and ad-hoc categories	A.MCKAY A.CASTLES C.DAVIS G.SAVAGE Semantic involvement in reading aloud: A long term training study	E.SCHUBERT Differences in emotion observed and emotion felt in response to music
12:30 PM	M.EDWARDS L.GRAINGER Perceived speed depends upon relative motion	BLANK	B.RAMM G.HALFORD Conceptual combination and working memory	C.WILSHIRE L.KEALL E.STUART D.O'DONNELL Exploring the dynamics of aphasic word production using the picture-word interference task: A case study	F.BAILES R.DEAN Detecting musical macrostructure: Some early findings
1:00 PM	Lunch (Executive Lounge)				

SATURDAY APRIL 2	Theatre 1 Chair: Mark Edwards	Theatre 2 Chair: Jason Mattingley	Theatre 3 Chair: Ottmar Lipp	Theatre 4 Chair: Chris Davis	G20 Chair: Chris Chambers
2:00 PM	K.CHALLINOR Opponent-motion normalisation does not predict direction discrimination at low contrasts.	N.CHERBUIN C.BRINKMAN fTMT, a new measurement method to assess lateralised hemispheric activation using infrared tympanic membrane thermometry	A.CHAN A.THOMPSON Children's counterfactual thinking to different story outcomes	S.GREENFIELD Rapid access of articulatory feature representations in reading: A masked onset priming study	D.VAN VALKENBURG Quantifying auditory stream segregation
2:30 PM	M.OKUBO M.NICHOLLS Role of the magnocellular pathway in hemispheric differences in temporal resolution	A.ADAM F.MARTIN M.SUMMERS ERP indices of attention correlate poorly with standard neuropsychological tests in a normal population	A.KOY A.NEAL O.LIPP Using varied training to encourage use of a complex strategy during categorization	M.COLTHEART Computational modelling of the masked onset priming effect by the DRC model	P.LACHEREZ J.BROERSE Changing the perception of a reversible figure by adaptation - again
3:00 PM	R.VAN DER ZWAN A.BROOKS Shaky ground or new TIRF: How temporal impulse response functions explain the jitter illusion	B.STONE M.LEE S.DENNIS T.NETTELBECK Pupil size and mental load	S.KEMP R.GRACE S.BEGGS Category rating and ordinality	B.NEWELL S.ANDREWS Repetition priming in lexical decision is not immune to manipulations of attention	N.MCLACHLAN S.WILSON M.LEONG Measuring pitch in tuned percussion instruments
3:30 PM	Afternoon tea (Executive Lounge)				

SATURDAY APRIL 2	Theatre 1 Chair: Chris Woodruff	Theatre 2 Chair: Philip Smith	Theatre 3 Chair: Steven Roodenrys	Theatre 4 Chair: Sally Andrews	G20 Chair: Ken McAnally
4:00 PM	G.CUMMING Inference by eye: The overlap of two confidence intervals can be informative	B.WOLFGANG P.SMITH Attentional mechanisms in visual signal detection: The effects of simultaneous and delayed noise and pattern masks	N.WEBER N.BREWER Of grain size in eyewitness memory	M.NGUYEN-HOAN M.TAFT Speech identification deficits in native-like L2 speakers	R.ERAMUDUGOLLA D.IRVINE K.MCANALLY R.MARTIN J.MATTINGLEY The role of attention in perception of complex auditory scenes: evidence from a novel change-deafness task
4:30 PM	D.BIMLER From color naming to a language space: An analysis of data from the World Color Survey	I.GOULD P.SMITH Attentional mechanisms in visual signal detection: Signal enhancement or uncertainty reduction?	K.CHALMERS Context effects in recognition memory	M.TAFT Using a concurrent orthographic task to examine the involvement of abstract phonological representations in spoken word processing	J.HARTCHER-O'BRIEN J.BUCHHOLZ Investigating the Precedence Effect: A comparison of masked and echo thresholds
5:00 PM	M.LEE A generative model of human performance on an optimal stopping Problem	M.CARROLL J.MCLEAN The influence of multiple cues on attentional capture	L.NIMMO S.LEWANDOWSKY Isolation effects revisited: Whether an event is heard or seen, temporal distinctiveness does not affect short-term serial recall	A.LINDELL 'Use' and 'ewes' versus 'not' and 'knot': Orthographic and phonological priming in the left and right hemispheres	B.SACHTLER P.GROVE T.VON WIEGAND J.BIGGS Spatial bias and temporal lag in tactile space perception
5:30 PM	D.NAVARRO An infinite dimensional model for individual differences.	T.VISSER R.BOURKE Probing cueing mechanisms using a dual-task procedure	E.KEMPS J.ANDRADE E.GILMAN Susceptibility of visual imagery and short-term memory to visual interference	K.PAMMER I.HOLLIDAY P.HANSEN P.CORNELISSEN Evidence for dorsal pathway involvement in visual word recognition	M.TLAUKA A.DRUMMOND Spatial memory of major world cities
7:30 PM	Dinner (Red Emperor)				

SUNDAY APRIL 3	Theatre 1 Chair: Troy Visser	Theatre 2 Chair: Michael Tlauka	Theatre 3 SYMPOSIUM From falsely seeing to falsely believing Chair: Deryn Strange	Theatre 4 Chair: Carolyn Wilshire	G20 Chair: Jacquelyn Cranney
9:30AM	J.HARRIS The relationship between polychronicity and performance on decision-making tasks	BLANK	M.TAKARANGI S.CLIFASEFI J.BERGMAN Blind Drunk: The effects of alcohol on inattentional blindness	T.GEDEON L.COWARD An account of memory dissociations in the recommendation architecture cognitive model	S.MORRIS J.CRANNEY L.LEDGERWOOD L.ZADRO The influence of leader selection and group member allocation on group task performance and team maintenance
10:00 AM	F.KARAYANIDIS R.HANNAN A.HEATHCOTE D.POBOKA P.MICHIE Anticipatory cognitive control in task-switching: Differential effects of 'switch-to' and 'switch-away' cues.	J.PHILLIPS J.MEEHAN M.FINCH The effects of incongruent pointers upon positioning performance in a graphical user interface.	S.SHARMAN M.GARRY P.DITTO E.LOFTUS Memory and information availability in advance medical decision-making	K.KIRSNER K.HIRD J.DUNN Speaking is a complex dynamic multi-dimensional system	M.BLOSFELDS N.BARRETT T.ABBA Paranormal belief: An investigation of the cognitive deficit hypothesis

SUNDAY APRIL 3	Theatre 1 Cont.	Theatre 2 Cont.	Theatre 3 Cont.	Theatre 4 Cont.	G20 Cont.
10:30 AM	G.LONG F.MARTIN Effects of task difficulty and short-term effort mobilization on resource allocation	L.SALING J.PHILLIPS R.OGEIL The impact of joint combination on the power law governing curved drawing movements	D.STRANGE D.BERNSTEIN T.KINZETT M.GARRY Photos affect memory for newspaper stories	B.BIEDERMANN N.RUH L.NICKELS M.COLTHEART Can the Tip of the Tongue state give evidence for an abstract syntactic level of processing?	L.OUSCHAN V.LOCKE Is it what we do or what we think that really matters in automatic stereotype activation?
11:00 AM	C.STEVENS G.WALKER M.GALLAGHER Severe tinnitus and its effect on visual divided and selective attention	V.LIM J.HAMM W.BYBLOW I.KIRK Abnormal sensorimotor integration during self-paced movements in Parkinson's Disease	L.FRENCH R.SUTHERLAND M.GARRY False memories disappear during sibling discussion	L.KREBS-LAZENDIC H.WINSKEL C.BEST D.BURNHAM Production accuracy of English /I, i, Ø, E/ by native speakers of Serbian	BLANK
11:30 AM	Morning tea (Executive Lounge)				
12:00 PM	Business meeting
